Hard Skill

- Deep Learning / Machine Learning
- Worked with different code editors : _ Google collab, Vs code, PyCharm, Kaggle, Replit.
- Generative AI
- Website Frontend development
- Python, PyTorch, Keras, LLM's, Langchain
- C,/C++
- DSA in C
- GitHub integration

Soft Skill

- Reading Research Papers on new Techs
- Time management
- Group management and discussion
- Team work
- Flexible with different Technologies

Education Background

- School of excellence Madanpur khadar, 110076
Passed 12th
Completed in 2021
Percentile :- 78%
- College Degree :-
Dr. Abdul kalam technical University
*I am a second Year Student and
Currently Enrolled in B.Tech/IT @
Accurate institute of Technology and management
Session :- 2022-2026*

About Me

I am Rajat Yadav dedicated my self in learning new techskills to build a carrier full of great skills. I spend most of my time in learning AI/ML/DL and others tech's related to AI. I am a college student currently pursuing B.Tech from AKTU in greaernoida.

Projects

Deep learning based :-

1- CNN malaria detection model in Cells
using Kaggle Dataset

2-CNN Human Emotion Detection using
Kaggle Dataset

3-Quiz generator APP Generative AI model
using Langchain and OpenAI API.
with AWS cloud Deployment.

4-Home security AI model using TK inter
and Libraries in Python.

5- Fitness ChatBot with Fine Tuned
LLAMA_2 and LangChain.

FrontEnd projects :-

1- Amazone clone

2- Weather Prediction app
Image generator using API

3-Java script based Web applications.

Many More projects related to DL/ML/AI
and Frontend web dev are available on my
GitHub Account.
